MCI CHAIRMAN McGOWAN TO ADDRESS GW ALUMNI LUNCHEON

William G. McGowan, chairman and chief executive officer of MCI Telecommunications Corp., will speak on "Telecommunications: Revolution not Evolution," at an alumni luncheon of the School of Government and Business Administration of the George Washington University on Friday, Jan. 14. The luncheon will begin at noon, with a 30 minute social period preceding. The luncheon will be held in the GW University Club on the Third Floor of the Marvin Center, 800 21st St., NW.

McGowan has been a driving force behind the growth of MCI, which in 1982 almost tripled its customer base, increased its net income by 309 percent and saw its income from operations grow by 225 percent.

Improving technology, government deregulation and increased consumer awareness have all contributed to the explosive development in the once staid communications industry, and which McGowan will discuss.

The cost of the luncheon is $9.75 per person. Parking is available in the Marvin Center Garage. For more information, call 676-6435.

WASHINGTON AREA STUDIES: A Different Look at the District

Most people know Washington, D.C. as a government center, media hub and sightseeing mecca--but what about the district as a place to live? Because of its role as the nation's capital, it's sometimes forgotten that Washington has a history and culture as a metropolitan region, too.

In 1980, the George Washington University created its Center for Washington Area Studies to coordinate GW's outreach in this area. The center draws on faculty research, develops new courses and degree programs, supports new publications, sponsors public programs, and works to spread knowledge of Washington both on and off campus. The center's programs include:

- The Washington Area Studies Institute--a summer program offering courses, tours and public lectures on the history, culture and development of the city, the Potomac Basin and the Chesapeake region.
- GW Washington Studies--a series of monographs written by GW faculty and graduate students. Ten have been published on topics of general interest--including neighborhood histories of Foggy Bottom, Brookland and Adams Morgan, and a thorough

(more)

bibliography of studies about Washington.

- Washington Works--a semiannual review of related scholarly works drawn from various disciplines which provides a forum to assess important new local and regional research.
- Benjamin Banneker Visiting Professor--each year, a distinguished scholar of urban studies spends one semester in residence at GW as the visiting professor. He or she teaches one cross-disciplinary course and devotes the balance of time to research. A Banneker fellowship is awarded annually to support a graduate student for one full year of study.

Washington Area Studies events for 1983 will include: "Washington at a Crossroads: Assessing the Past and Future of the Capital City and Region"--June 3-5; a three-day program that will combine lectures, walking tours and visits to unique restaurants, and will assess the city in transition. Separate days will be devoted to "The Potomac Region," "Contemporary Washington," and "Washington Neighborhoods." The event is sponsored by the GW Alumni Relations Office.

"Washington Area Studies Summer Program"--June 18-Aug. 18; five separate tours will delve into the history, culture and development of the Potomac and Chesapeake Bay region. Sessions will study "Industrial Baltimore," "Downtown Washington," "Washington's Early Suburbs: Uniontown and LeDroit Park," "Capitol Hill," and the "Georgetown Waterfront." These tours, which are open to the general public, are part of a larger program which includes courses on the history, architecture, planning and historic preservation of Washington, D.C.

"The D.C. Historical Studies Conference"--March 4-5; the 10th annual conference will attract speakers discussing topics about Washington and its metropolitan region. The conference sponsorship includes the Gworge Washington University, the Columbia Historical Society, and the Martin Luther King, Jr., Library.

For information on these programs or on Washington Area Studies in general, contact the GW Division of Experimental Programs, 676-7565.

GW TRUSTEES APPROVE BUDGET, SET TUITION FOR 1983-84

The George Washington University Board of Trustees has approved a 1983-84 budget of $126 million, excluding the university's medical center. The figure is an increase of $13.5 million, or 12 percent, over the 1982-83 budget, and includes an additional $500,000 as student aid for currently enrolled students.

Due to pending federal regulations which could greatly affect the medical center, the board will review the complete medical budget late this spring. The board did approve, however, a $38.2 million budget for the School of Medicine and Health Sciences.

Tuition charges approved by the board are as follows:

- For undergraduate study in the Columbian College of Arts and Sciences, the School of Education and Human Development, the School of Government and Business Administration, the School of Public and International Affairs and certain programs in Allied Health Sciences, the tuition will be $6,100 per academic year.

(more)

- For undergraduate study in the School of Engineering and Applied Science, tuition will be $6,700 per academic year.
- In the School of Medicine and Health Sciences, tuition for third and fourth year students will be $17,000. For entering students the tuition will be $18,750, down from the 1982-83 tuition of $19,000. Tuition for second year students will also drop to $18,750.
- For first year students in the National Law Center, tuition will be $8,100. For returning second and third year students, tuition will be $7,200. Tuition for the Doctor of Juridical Science degree will be $7,300.
- For graduate study in the School of Education and Human Development, the Graduate School of Arts and Sciences, the School of Public and International Affairs, the School of Government and Business Administration (except for students admitted in or after fall 1978 for degrees of Doctor of Business Administration and Public Administration) and for graduate and undergraduate courses in the Division of Continuing Education and Summer Sessions, tuition will be $228 per semester hour. For the degrees of Doctor of Business Administration and Public Administration, students who entered in fall 1979, 1980, 1981 and 1982, tuition will be $9,000, $9,600, $11,350 and $13,200 respectively; for students entering fall 1983, tuition will be $15,500. For graduate study in the School of Engineering and Applied Science, tuition will be $248 per semester hour.

(more)

The 1983-84 tuition for undergraduates in Columbian College and the School of Engineering and Applied Science actually will be $50 less than originally projected. "Since the initial announcement last fall of a tuition increase, the Student Association has worked very closely with us in exploring ways to reduce the tuition increase," said William D. Johnson, associate provost. "The final 1983-84 tuition figure in large part is a result of their efforts and cooperation." In addition, the projected increases for part-time undergraduate and graduate students were reduced by $2 per credit hour.

The Board of Trustees also approved an additional discount for undergraduates who pay a full year's tuition in September. Based on the 1983-84 general undergraduate tuition rate, this would mean an additional $50 reduction, dropping the 1983-84 tuition to $6,050. The university will also offer a four-year advanced payment plan, by which undergraduates would pay the entire $24,400 four-year tuition (based on the 1983-84 rates) and thus would be immune from further tuition hikes while attending George Washington.

- 30 -

EDITOR'S NOTE

In 1982-83, The George Washington University was one of five private medical schools in the United States charging $14,500 or more in tuition for first year medical students. They were: New York Medical, $14,500; Mayo, $14,900; Chicago Medical, $15,209; Georgetown University, $17,500; and George Washington, $19,000. In the public sector, the University of Vermont charged out-of-state first year students $14,900 and the University of Colorado charged out-of-state first year students $26,337.

The George Washington University is the first medical school in the District of Columbia to announce its medical school tuition for the coming year, as well as one of the first in the nation. Since many medical schools have not yet established their 1983-84 tuition rates, care should be taken in ranking institutions by tuition until figures are available.

Because they are in the District of Columbia, The George Washington University and Georgetown medical schools do not receive the equivalent of state support, which can greatly affect tuition, as the following table illustrates.

COMPARATIVE UNDERGRADUATE TUITION RATES

1983-84	Tuition
The George Washington University	$6,100

1982-83	
Northwestern University	$8,085
University of Pennsylvania	8,000
Cornell University	7,950
Boston University	7,175
Washington University(St.Louis)	7,125
Columbia University	7,050
University of Southern California	7,000
University of Rochester	6,850
Georgetown University	6,830
New York University	6,630
Carnegie Mellon University	6,300
Syracuse University	6,220
Duke University	6,210
Case Western Reserve University	6,200
American University	6,200
Vanderbilt University	6,100
Tulane University	5,934
Catholic University	5,750
University of Miami	5,700
Trinity College	5,400
Fordham University	4,950
Temple University	4,800
University of Maryland (non-resident)	3,303

**The University of Notre Dame conducted a survey of 1981-82 and 1982-83 general undergraduate tuition rates charged by 35 institutions. In 1981-82, The George Washington University was 34th and in 1982-83 was 32nd in rank of the 35 institutions. The 1983-84 tuition of $6,100 would move GW up to only number 28 on the 1982-83 scale.

HOW CAPITATION CAN AFFECT TUITION

SCHOOL	TUITION**	STATE SUPPORT	TOTAL
1983-84			
The George Washington University	$18,750	--	$18,750
1982-83			
Georgetown	$17,500	--	$17,500
Chicago Medical	$15,209	$4,890	$20,099
Pittsburgh	$14,400	$7,465	$21,865
Temple	$12,050	$7,425	$19,475
Miami	$8,670	$12,630	$21,300

**Tuition figures are for first-year medical students
